# Geared DC motor                                      12VGXRPM
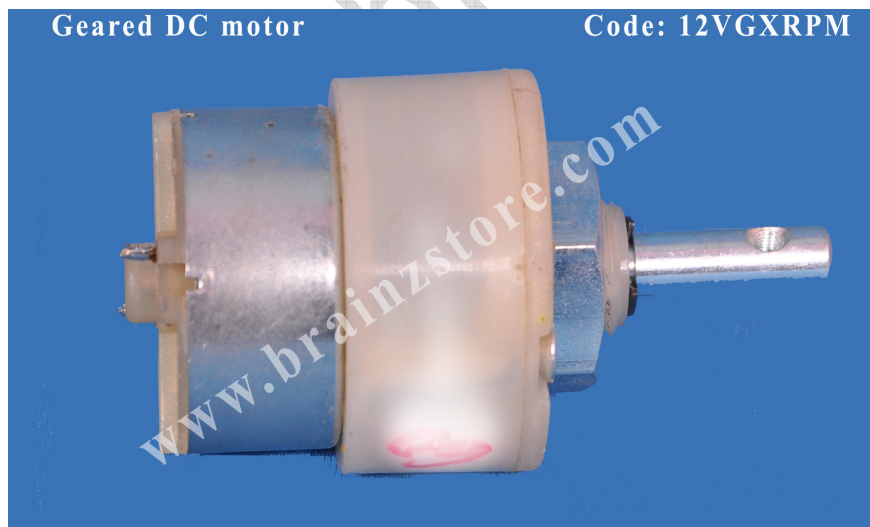

The 12V DC Geared Motor can be used in variety of robotics applications and is available with wide range of RPM and Torque. Nut and threads on shaft to easily connect and internal threaded shaft for easily connecting it to wheel.

## Features:

- X RPM 12V DC motors with Gearbox
- 6mm shaft diameter with internal hole
- 125gm weight
- Same size motor available in various rpm
- 2kgcm torque
- No-load current = 60 mA(Max), Load current = 300 mA(Max)

**X ---------- (30, 60, 100)**

Geared DC motor                          Code: 12VGXRPM

**Cost:**

**(30 RPM) 12VG30RPM**

**INR:  210**

**(60 RPM) 12VG60RPM**

**INR: 228**

**(100 RPM) 12VG100RPM**

**INR: 245**
